

Article 27 (adequate standard of living) Every child has the right to a standard of living that is good enough to meet their physical and social needs and support their development. Governments must help families who cannot afford to provide this.

Monday 23rd January 2023

Dear Parents and Carers,

We are delighted to be supporting the NSPCC by taking part again in **Number Day** on **Friday 3rd February 2023**.

All staff and children at Beaver Road truly believe in the Convention of the Rights of the Child and by raising money, they want to help the NSPCC to fund their vital services such as *Childline*: the helpline that is always there for children and young people whatever their problem or concern. Everything the NSPCC does protects children today and prevents abuse tomorrow. The NSPCC needs our support more than ever; on average, a child contacts *Childline* every 25 seconds.

Making Maths meaningful

Number Day is a fantastic way to make Maths fun and bring about a positive, 'cando' attitude towards it. We are offering a range of events, linked with Maths, which you can sponsor your child to do. We are encouraging a minimum donation of a £1 per event, so please donate to help us support the cause!

We've set up a **Just Giving page** on this link to sponsor your child:

https://www.justgiving.com/fundraising/nspccnumberday2023-brps

with the **QR code**:

To avoid the handling of cash, **all sponsorship money** and **donations** can be channelled **through this link**, which is effective from now. Please donate and share with friends so we can support the NSPCC.

It all adds up

The children and the Beaver Road staff team are really looking forward to all the fun of Number Day, and we appreciate your involvement. All the money we raise at our school will make an **enormous** difference to children today and help NSPCC prevent abuse for children tomorrow and beyond. More information about events will be shared with yourselves and the children nearer the time.

Thank you for your continuing support,

Kind Regards

Natalie Turner Mathematics lead
